

Covid-19 safety

Leo Cussen is committed to providing onsite programs that comply with the latest recommendations for safe workplaces and client safety.

We continually update our plans and procedures based on government and health department requirements and guidelines to ensure we are more than adequately prepared to host programs on-site.

Procedures for attending on-site are as follows:

When you are unwell

If you are unwell, please do not attend onsite at Leo Cussen.

Instead, please email your Mentor to advise that you will not be attending that day. We may ask you to complete a health declaration form to keep us informed about your symptoms and to test for covid as appropriate.

Entry lobby and lifts

Please follow signage and/or building concierge directions upon entering the building.

When onsite

Workshop groups are adjusted to comply with current government requirements.

Signage denotes restrictions and maximum numbers for individual areas.

Hand sanitiser stations are provided at numerous points.

Cleaning

Leo Cussen undertakes regular and enhanced cleaning of all areas of our premises.

Materials

Soft copy materials will be provided at the commencement of the program.
